Used by: Everyone — view only

MENTAL MODEL

Only 3 things can happen

1 Record a PAID expense

Money already left your hand.
Cash from till, UPI, bank — doesn't matter. It's done.

WHERE

Outlet /ops/v2/ · Expense · Bills (paid)

2 Raise a PURCHASE ORDER

You ordered something. Money hasn't moved yet.
Vendor will deliver, bill, then we pay.

WHERE

Purchase (Zoya)

3 Record a BILL we owe

Invoice arrived. Haven't paid yet.
Electricity, vendor invoices, rent due — whatever.

WHERE

Bills (unpaid)

Pick the right one = system stays clean. Wrong one = double-counts.

APP 1

NCH Outlet

URL	WHO	WHEN
`nawabichaihouse.com/ops/v2/`	Basheer (GM) · Kesmat (cashier) · Nafees (cashier)	Every time cash moves at NCH counter

Record all NCH counter-cash events in real-time

💸 **Record Expense**	Cat picker → product → amount → save. Till cash drops automatically.
📦 **Pay open PO (NEW!)**	Pick a Zoya PO → confirm amount → till cash drops + PO marked paid.
📂 **Past expenses**	Date chips: Today / Yesterday / 7d / 30d. Prevents duplicate re-entry.
🏁 **Shift handover**	End-of-shift cash count + runner settlement + variance check.

APP 2

HE Outlet

URL	WHO	WHEN
`hamzaexpress.in/ops/v2/`	Noor (HE cashier) + Basheer (GM, optional)	Every time cash moves at HE counter

Same as NCH — HE's version

💸 **Record Expense**	Modal popup with category grid + past expenses below.
📦 **Pay open PO (NEW!)**	Inside Expense modal — HE POs only. One-tap settlement.
🤝 **Captain handover**	Waiter hands cash to counter → records who / how much.
📲 **Paytm upload + reconcile**	Upload Paytm CSV → auto-match against till.

APP 3

Purchase

URL	WHO	WHEN
`hnhotels.in/ops/purchase/`	Zoya (purchase manager)	When ordering raw materials or recording bills-from-PO

Raise vendor POs (with or without payment)

🥩 **Raw Material cart**	Pick vendor → search products → qty + price → confirm.
💰 **Pay & create (NEW!)**	One button creates PO + records bill + settles payment atomically.
📄 **Bill from PO**	Link incoming vendor invoice to existing PO (3-way match).
📦 **Mark Received (NEW!)**	After goods arrive, tap to log receipt date + who received.
🗃️ **Past entries**	Chips: Today / 7d / 30d. Brand filter: All / NCH / HE / HQ.

APP 4

Expense

URL	WHO	WHEN
`hnhotels.in/ops/expense/`	Naveen (CFO) · Nihaf · Basheer	When you pay an expense that's ALREADY settled

Record instant-paid expenses (salary, rent, police, petty)

15 categories	Salary / Advance / Rent / Police / Petty / Marketing / etc.
Payment method	Cash / HDFC / Federal / Razorpay / Paytm — captured per entry.
Bill photo	Upload receipt → Drive + Odoo attachment + D1 log.
Past entries	Date chips + Brand chips (NCH / HE / HQ / All).

APP 5

Bills

URL	WHO	WHEN
`hnhotels.in/ops/bills/`	Naveen · Basheer · Nihaf (admin/cfo/gm for payment)	When a vendor INVOICE arrives — paid or not

Record bills that need paying — the missing path

⏳ **Unpaid tab**	Live list — overdue first, due-soon next. 'Pay' button per row.
➕ **Upload bill**	Vendor + amount + due date + photo. Mark paid / unpaid / partial.
📁 **All Bills tab**	Full history with date filters. Paid bills kept for audit.
💳 **One-click pay**	Pick account (HDFC/Cash/UPI) + 'paid by' name → done.

APP 6

Money Cockpit

URL	WHO	WHEN
`hnhotels.in/ops/money/`	Everyone — READ ONLY	Any time you want to see financial position

Unified cross-brand financial dashboard

💵 **Cash Position (NEW!)**	Bank + cash on hand + today's outflow + week/month bank flow.
📊 **5 tabs**	Paid · Open POs · Bills Pending · Orphans · Dupes.
⚡ **Real-time**	Pulls from Odoo + D1 + bank feed every click.
🔁 **Dupe resolver (NEW!)**	Mark historical dupes as paired OR cancel PO — one click.
📎 **Photos**	Click 📎 badge → opens Drive link for bill/PO photo.

WORKFLOW

6 real scenarios

For each scenario: which app, what to do, what happens.

Scenario 1 — Basheer pays ₹50 cash for lemons

1

NCH Outlet

`/ops/v2/`

Tap: Expense

Then: Raw Material → Lemon → ₹50 → Save

RESULT

✓ Till cash drops ₹50
✓ Shows in Past expenses
✓ Cockpit Paid tab: +1 row

Scenario 2 — Zoya orders ₹2,000 mutton (pay later)

1

Purchase

`/ops/purchase/`

Tap: **Raw Material Purchase**

Then: Vendor: HKGN → Mutton × 1 @ ₹2000 → Confirm

RESULT

✓ Odoo PO created · state=purchase
✓ Cockpit Open POs: +1 row · ₹2,000
✓ Nothing paid yet

Scenario 3 — Vendor delivered the mutton

1

Purchase

`/ops/purchase/`

Tap: **Past entries**

Then: Find PO → tap '📦 Mark received'

RESULT

✓ Logged: received date + Zoya's name
✓ Badge shows next to vendor name
✓ Cockpit lifecycle: 2/3 dots filled

Scenario 4 — Basheer pays the mutton PO in cash

1

NCH Outlet

/ops/v2/

Tap: 📦 **Pay open PO**

Then: Pick the HKGN Mutton PO → confirm ₹2,000 → save

RESULT

✓ NCH till drops ₹2,000
✓ Odoo bill auto-created + paid
✓ PO shows PAID in cockpit
✓ No duplicate alert (linked cleanly)

Scenario 5 — Electricity bill ₹15,000 arrives (due next week)

1

Bills

`/ops/bills/`

Tap: Upload Bill

Then: Vendor BESCOM → ₹15000 → due next Tue → photo → Status: Not paid

RESULT

- ✓ Bill shown in Unpaid tab (amber)
- ✓ 'Bills Pending' KPI +₹15,000
- ✓ Becomes RED on due date
- ✓ One-click Pay when ready

Scenario 6 — Naveen pays the BESCOM bill from HDFC

1

Bills

`/ops/bills/`

Tap: **Pay ₹15,000 button**

Then: Account: HDFC Bank → date → Paid by: Naveen → Confirm

RESULT

- ✓ Odoo payment created + reconciled
- ✓ Bill disappears from Unpaid
- ✓ Cockpit KPI drops
- ✓ HDFC bank balance updates

DECISION TREE

Which app to open right now?

1	Did money JUST LEAVE your hand (cash / UPI / bank)?	YES → Outlet /ops/v2/ (if outlet) · /ops/expense/ (if office)
2	Are you ORDERING something for later delivery?	YES → /ops/purchase/ — raise a PO
3	Did a vendor INVOICE arrive (bill you'll pay later)?	YES → /ops/bills/ — upload as UNPAID
4	Just want to SEE the big picture?	YES → /ops/money/ — cockpit (view only)

PO LIFECYCLE

Every PO has 3 timestamps

STEP 1

CREATED

Zoya raises the PO in /ops/purchase/

STEP 2

RECEIVED

Goods physically arrive.
Zoya taps '📦 Mark received' → date logged.

STEP 3

PAID

Money moved — bill created + payment.
Via 'Pay & create' or outlet 'Pay open PO'.

Cockpit shows 3 dots per PO — hover for timestamps. Easy to spot which step hasn't happened yet.

Resolve historical double-counts

Before Phase 2: outlet paid Zoya's POs as a separate cash expense. Cockpit flagged 30 of these as cross-system dupes.

✓ Mark as paired

Both records are real — just link them.

Cockpit stops flagging. No Odoo change.

✗ Cancel PO

Outlet expense IS the real spend.

Odoo PO gets CANCELLED. Historic accuracy restored.

Admin / CFO / GM only. Both buttons prompt for confirmation.

TROUBLESHOOTING

Common issues + fixes

Saved something, can't see it

Hit refresh / pull-to-refresh. Also check Orphans tab in cockpit.

Cashier can't find a PO in 'Pay open PO'

Make sure brand matches (NCH outlet sees NCH POs only).

System flagged a pair as duplicate

Cockpit Dupes tab → Mark as paired OR Cancel PO (admin only).

Bill photo not showing in cockpit
